## OBJECTIVE

Enthusiastic fresher to work for industry -vision to acheive more in life curious to learn new technology

## SKILLS & ABILITIES

I possess a strong foundation in programming languages, including proficiency in C/C++ and Java. My expertise extends to both frontend and backend development, where I have hands-on experience in building responsive user interfaces using HTML, CSS, and JavaScript, as well as developing robust server-side applications with Node.js and Express.js. Additionally, I am well-versed in database management, particularly with MongoDB. While my knowledge of data structures and algorithms is at a basic level, I am continually expanding my understanding in this critical area.
